

### Fiber-Optic Bundles – S 120 Glass Fibers

The S 120 fiber-optic glass bundle is suitable in both medical and industrial applications, the choice for rigid endoscope with its wide field-of-view and off-axis view angles.

Combined with S1 lubricant, the S120 glass fibers are ideal for endoscopes and other applications requiring tight bending of fiber bundles.

### Specifications

Features	Specifications
materials	glass
numerical aperture	0.86
acceptance angle	118°
fiber diameter	25 $\mu$ up to 100 $\mu$
bundle length	10 m
lubricant	S 1, non-toxic, super flexible, perfect compound with optical adhesives. Compatible with Epotck 300 series epoxy.
